WEDNESDAY, JULY 17

10:00 AM - 10:15 AM	NAMIC Welcome and Opening Session
	Crista Hassett Senior Vice President - Events, Education, & Association Services NAMIC
10:15 AM - 10:20 AM	Break
10:20 AM - 10:40 AM	Insurtech Fastpitch Session 1 Majesco
	Attendees will gain a deep understanding of the pivotal role data plays in the insurance industry's operations – from risk assessment to fraud detection. They will discover how Majesco's data and analytics solutions, including Majesco Copilot, leverage advanced artificial intelligence models to deliver actionable insights tailored to specific industry needs. Attendees will learn how Majesco's vast contributory database fuels the training of these AI models, ensuring unparalleled accuracy and efficiency in decision-making processes.
	Pat Davis Senior Vice President & General Manager, Data & Analytics Majesco
10:40 AM - 10:45 AM	Break #2
10:45 AM - 10:55 AM	Insurtech Fastpitch Session 2 Vymo, Inc.
	Vymo is the first ground-up artificial intelligence-enabled distribution management platform built for insurance sales leaders, sellers, and agent onboarders. Vymo will tell attendees how to increase revenue, eliminate expenses, and reduce risk by changing the way you and your team engage with agents and clients by using AI that puts the power of data at your fingertips.
	Thomas Hall Vice President, Customer Experience Vymo
	Phillip Brown Vice President, Strategic Alliances Vymo
10:55 AM - 11:00 AM	Break #3
11:00 AM - 11:15 AM	Insurtech Fastpitch Session 3 Attune Insurance Services, Inc. and Closing Comments
	Attune's technology enables carriers to bring new products to market faster or improve the customer and underwriting experience of current products. The Attune platform delivers a best-in-class experience across the complete insurance experience from underwriting, binding, and billing to servicing and renewing. Attune was founded in 2016 to modernize SME insurance. Its technology has powered more than \$1 billion in premium across commercial property, liability, and workers' compensation lines. With proprietary, modular software, Attune reduces time to launch a new product by more than 66 percent and at a fraction of traditional technology operating costs. Recently, Attune's technology was used to launch a new multistate workers' compensation program in three months. Learn how partnering with Attune can drive greater velocity in launching products while reducing tech expenses to best-in-class industry levels.
	James Hobson Chief Executive Officer Attune Insurance Services
